DXpedition News

Nicobar - VU4 Second-hand reports continue to arrive from India that **VU4NRO** will be active again the first week in May. [If this does come to pass, let's hope that they spend more time on CW, and less on unproductive list operations. -ed.]

Europa - FR/E FR5ZU/E is now active, espcially in French nets, such as the one on 14116 Khz. Also try Snooky's net on 14183. He'll be there for several weeks, and then may move on to Tromelin FR/T.

Libya - 5A Bert **5AØA** is making great use of his donated FT-901 and 3-element beam. He worked many US East Coast stations on 21260 SSB around 18-1900Z April 8th and 9th, as well as on his usual haunt of 14030 around 1700Z. Beware of "insurance" contacts; Bert has blasted a couple of DXers who called him after a successful QSO! And remember: no questions, nor callsigns on the envelope to QSL manager SP6BZ.

Aurba - P4 Bob Wilson KA1XN will operate **P54AR** April 24-May 2, in celebration of the Aruba Roadrace, an international 10 kilometer foot race on April 30, in which Bob will compete. This is the first use of the P45 prefix. Watch 24 kHz up on CW, listening up, and 1826 kHz, listening down. He'll try 50.110 MHz as well. QSL with SASE to WA1ZDE.

Bahamas - C6 DK6NN/C6 should be on now through May 18 from Abaco (NA-01). Watch 7015 at 0200Z on even numbered days. AMTOR 14091: DKNN. QSL home call or via bureau.

Oblast Ø02 UD6DC/UD2N and **EV7DN** are due on from this tough Oblast May 2-10. This is the small section of Azerbaijan that is physically separated from most of USSR.

Sierra Leone - 9L 9L1GG with the US embassy is an FOCer, and provides much-appreciated CW QSOs. QSL N4DW. This is not N4NW!

Chad - TT Tom Gregory N4NW/9Q5NW hopes to be on from TT8 soon.

Crete - SV9 DL2BK promises low-band CW activity now until mid-May. QSL DL2BK.

The Gambia - C5 C56/G3OLU is slated to be 5 kHz up on CW 10-160 meters April 15-22. QSL with SAE and IRCs to G3OLU.

The Russians are Coming;

The Russians are Coming

It's that season of the year again, when the polar path opens into the USSR, providing the best chance to work (if not confirm) some of the rarer Russian republics and oblasts. East Coast stations should try 20 and 40 CW around 0200 or 1500Z; West Coasters a little later. The triennial Gagarin Cup Competition April 11-12 brought out hundreds of U/R stations, and the CQ-M contest May 9-10 is another good chance to pick up your republics.

DXpeditioners Wanted

Spud Monahan K6KH is organizing a major trip to **Kenya 5Z4** June 29-July 14, including the IARU HF Championship and three tourist-type excurions to see wildlife of the non-ham variety. Cost around US$3000.

Shortly Noted

- **VR6TC** Tom Christian is back on Pitcairn (OC-44) after a long illness. Try 14187 at 0200Z. Wife Betty VR6YL is also active.
- **BYØAA** in Zone 23 is on 14025 after 0000Z. He has been pounding into the East Coast on a dialy basis.
- **T32BF** is the new call of KH6GDR on Christmas Island (OC-24). QSL home call.
- **4K1F** is S. Shetlands (AN-10). QSL UQ2OC.
- **BV2B** Sundays on 14227 at 2330Z.
- **VKØGC** Graham Currie on Macquarie is often on 80 M SSB at 0700Z, and then moves to 40 M SSB, especially around 7083 kHz.
- **SVØAC/SV9** hangs out on AMTOR "where the breakers don't bother me." [As much. -ed.]
- **A61AB** cards now count for DXCC. Work him in the W7PHO net.

—— **Chod Harris VP2ML Editor**

Propagation Watch

WOW! The solar flux topped 100 in early April, for the first time since February, 1986! And the last time before that was July, 1985. Sunspot counts reached the 70s. Yet absorption (A-index) stayed low, and the geomagnetic field (K-index) hovered near zero, giving us the best band conditions since last October.

Apparently the Novices with their new 10 meter SSB privileges got discouraged quickly, as few took advantage of the opening. But many TDXB reporters commented that 20 meters "Sounded like the good old days," as it remained open far into the night.

The bad news is that this is unlikely to continue, nor to repeat. An occasional peak in solar activity is the norm at this time in the sunspot cycle, but these fine conditions seldom last through a complete solar revolution (27.5 days). But keep an ear out in early May, just in case. And remember that the best propagation indicator is your receiver. Don't pass up turning on the rig simply because the propagation gurus don't see any great band conditions in their crystal balls. Listen, and call CQ on the higher bands, especially 12 meters.

"Tell your fellow DXers about The DX Bulletin"

Still More on the Indonesian Radio Silence

More details continue to dribble out of YB-land on the government-imposed "radio silence." Latest word is that the zero call district is off the air April 18-30. The earlier limits of March 21-May 15 were lifted for 55 hours for the WPX SSB March 27-29, and have apparently been relaxed still further. Other call districts are off the air at the decision of individual provincial governors, but expect all YBs to be few and far between April 18-30. Thanks YC0SY.

Islands On The Air

- EU-30 Jens OZ4PF on 15 meter SSB.
- EU-56 John LA2QAA will be there over Easter, and has promosed to check into the IOTA nets.
- EU-83 I4ALU/IP1 April 18-20.
- NA-04 is the new IOTA designation for the Alaskan North Slope islands, including Endeavor (AL7IJ) and Endicott (KL7H and KL7Y).
- NA-56 CM3RCB and CO4RCB like 40 meter CW.
- NA-84 VE2LJ (CQ Zone 2) continues his activity.
- EU-24 IM0WON and IM0BWR were on during WPX SSB.
- EU-38 PA2TMS
- EU-84 SM5AQD on 40 meter SSB.
- NA-61 VE7EDW near the top of 20 meters on SSB.
- NA-73 V31JQ by WB8YUC was very active.
- AS-48 UA3UBB/UA0Q on Johov likes 14006 kHz.
- NA-?? XE2BJC on Cedros Is. 15 SSB. QSL WB6JMS.
- OC-21 YB4FNN Abet Suhaian (TDXB reader).

[Islands On The Air directory and rules are available for US$3.00 from The DX Bulletin. -ed.]

Golden Jubilee Honor Roll

Call	100th QSO	Best DX			
January:	W1HH				
February:	WN4M	N6FT	N4XR	AE4Q	W3CV
	K4BAI	K6RF	YB4FNN		
March:	NW6P	W1VH	K8NN/0	K1VSJ	W1WY
	KC7V	KG1V	W6NNV	W7YS	NC7K
	VP2ML	WQ5Y	WA9GCB	KF4BU	W3FDP/5
	KJ4VH	KE8GG	W8KR	K9JS	AI3E
	W3TVB	TI2TEB	N6OJ	KM9J	W8MEP
	AG2K				

Comments from readers: "All worked with barefoot TS-820 and 3-els at 25'. I had set a goal to work at least one country per day. Made it in 79 days. Lots of fun, and thanks to a lot of fine information in TDXB." -W6NNV. "All with 90 watts and 2-el quad up 30'." -N6FT. "I showed my Golden Jubilee log to a fellow employee. He is QRT, having sold his rig a year ago. he said 'Holy Moses; there's DX out there!' He then bought a TS-440, and his tribander is getting RF again!" -NW6P. "I had over 100 by Mar 8, but I wanted to satisty my ego of working at least 50 on 160 meters." -W1WY. "Sure was lots of fun. Felt like the Old Days!" -WN4M. "This was a lot of fun. I run a TS-430 barefoot and my antennas are only a vertical and a dipole." -KG1V. "Had to go all the way to Montserrat to work 100 countries. Had to hustle the last hour of the contest to reach 100." -VP2ML. "I had fun doing this; Are they going to go for 150 or 200 countries during the year?" -AG2K. "The DXCC Golden Jubilee rekindled my interest in DX." -K6RF. "Golden Jubilee was a lot of fun, and I worked a few new ones in the process." -WA9GCB. "TDXB was very helpful in snagging many of these." -KJ4VH.

And two dedicated DXers did it the hard way, with only 5 watts. Chuck N6OJ finished up on April 8, after snagging 3Y TU BY LU/Z TZ TR VU4 and 4M0 with QRP. But Jack W8KR edged him out by completing his QRP DXCC Golden Jubilee on March 28, including BY KH3 TR ZL7 5A0! 5H 5Z 9Q. Jack says, "It wasn't easy. I used every skill and trick in my book of 30 years of DXing." Congratulations to one and all!

(Any more takers? Send your results to TDXB.)

DXpedition to Belau

Paul Young K1XM and his wife Charlotte Richardson KQ1F have returned from their two-week trip to Belau (formerly Western Carolines), and are recouperating before attending the Dayton Hamvention. Paul reports that they made about 3500 QSOs on CW as KC6MX, and another 500 on SSB as KC6IF, primarily with Europe. Openings to the East Coast were scarce and weak, usually over Europe. A short 40 meter CW opening around 1115Z (sunrise in Eastern US, and dinner time in Belau) provided the majority of such QSOs. Their Butternut vertical with 15 radials (and 300' of coax) provided some low band QSOs, including some W4s and W8s on 80 meter CW, but a nearby mountain cut out most low-angle signals on the short path. 160 meters was a big disappointment, yielding only 5 QSOs: 2 JAs, P29PR, and two active European Top Banders: ON4UN (with his ten BIG watts), and HB9AMO, who snagged his last CQ zone! The 160 meter opening to Europe lasted only three minutes, around 2046Z! Biggest thrill: having VU4APR/RBI answer a CQ! [So that's where she was. -ed.] The QSL will be a full color photo, well worth the wait that such cards demand, so please be patient. QSL to either home call.

Marion Island ZS8MI

George Collins VE3FXT failed in his latest attempt to operate from this increasingly-rare spot. And Jane's Defense Weekly reports that the South African Navy is investigating a potential air field on Marion, probably in connection with nuclear testing.

QSL Help Wanted

- **ZD7WT/ZD8TM** March 1983 for NØBB.
- **7XØAP** Oct 66; **5H3LE** Oct 82; **9J2BC** Oct 66; **VS9MB** June 67; **YJ8JG** July 68; and **9G1FY** Dec 66; for K1EBY.
- **KS4FA** 1962 (Swan Island) for AJ6V.
- **KP6AL** was W7FNK in 1958. Anyone know how to reach him for a 160 meter QSO?
- **HS1AHM** 1975 160 meter QSO and **4W1AE** 1973.
- **K6GMA**, manager for VS4JT in 1958
- and W1NG wants QSL info for **EA9CE** CQWW CW 1986.

QSL Help Offered

- **TU2QZ** is via WS5O, whose old call is N5DVY: Mac McBroom, 7300 Lomas Blvd. NE, Albuquerque NM 87110.
- and **CO7JC** is Juan, Box 5343, Camaguey, Cuba.

Around the DX Nets

For better or worse, much good DX is available primarily through list or net operations. Among these currently are A61AB and 9M8PV (W7PHO), ZK3PM, ZL7AA, and S92LB (Brown Sugar), S92LB, TJ1CH, and 3XØHSH/TY (ET), and 5V7SA and 5X5GK (Snooky's).

Tell your DX contacts that you saw their callsign in The DX Bulletin.
